5.2	Special Initiatives Taken for:	<p>i. Energy conservation/ use of Solar energy</p> <p>Energy is a term that broadly refers to either electricity, gas or water consumption; energy conservation and energy efficiency are often interchangeable terms as improved energy efficiency also means reduced energy consumption. An Energy Conservation Measure or ECM for short, is a single initiative undertaken to reduce the energy consumption of a particular piece of equipment or a certain aspect of essential building services; energy conservation measures or ECMs are pluralistic and therefore imply a combination of several ECM initiatives to reduce energy consumption across an entire facility or building. GCTE intends to increase and improve the environmental content of curricula at its constituent institutes by developing curriculum for undergraduate and postgraduate students focusing on emerging issues around environmental sustainability, improving awareness amongst students and faculty members around the environmental content of courses, and inviting guests and lectures from eminent researchers/ industrialists/sustainability experts at campuses.</p> <p>The institution has a stated energy policy streamlining ways of energy conservation, use of alternate sources of energy for meeting its power requirements Though all renewable energy sources fall under the category of alternative energy sources but renewable energy sources are derived from naturally replenished sources of Earth, such as the sun, wind, and water. Our college has initiated the following measures to conserve energy: Relevant supporting document are available</p> <p>ii. Solid Waste Segregation/Management</p> <p>Waste management is an attempt to reduce the adverse impact of waste on human life and the environment by polluting the surroundings and posing dangers to natural resources like rivers and streams that are clogged with garbage and contaminated with household wastes. Our college has an environmental policy that lays down the directives and steps taken for various environmental concerns. The waste management component is also mentioned in the policy which is followed in our institution, which is situated in the jurisdiction of the Municipal Corporation, Dharamshala. We at GCTE have an efficient system of waste collection and disposal and adoption of waste reduction which is evident from the steps given below:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> We have made an agreement with MC for daily Segregated garbage collection.</li> <li><input type="checkbox"/> Pipes linked to MC's Sewerage System</li> <li><input type="checkbox"/> Dry leaves compost bins are installed at various locations in the campus</li> <li><input type="checkbox"/> Use of manure from the decomposers for flower beds</li> <li><input type="checkbox"/> Paperless dissemination of information amongst the students and staff</li> <li><input type="checkbox"/> WhatsApp groups for receiving Assignments to reduce paper waste</li> <li><input type="checkbox"/> Segregation of waste at the source</li> <li><input type="checkbox"/> E-waste management according to the HP Govt. Norms.</li> <li><input type="checkbox"/> Weeding out old and obsolete records that have no legal or official relevance from the office</li> <li><input type="checkbox"/> Selling of Scrap paper and junk objects to generate income for the institute and also contribute towards recycling</li> <li><input type="checkbox"/> Cleanliness drives are organized in the College from time to time for the students to sensitize them regarding segregation and disposal of waste</li> </ul> <p>Institution waste management practices include</p> <ul style="list-style-type: none"> <li>• Segregation of waste</li> <li>• E-waste management</li> <li>• Vermi-compost</li> </ul>	24	24	<a href="https://drive.google.com/open?id=16aQBehvWVby_dSHU-uRImpS19wRn71A_">https://drive.google.com/open?id=16aQBehvWVby_dSHU-uRImpS19wRn71A_</a> , <a href="https://drive.google.com/open?id=15OwNQsmYQkDtHseyMetmxozPZUXuF4Ds">https://drive.google.com/open?id=15OwNQsmYQkDtHseyMetmxozPZUXuF4Ds</a>

Extension activity helps the students to build a sense of responsibility towards the nation. Various activities like cleanliness drive anti-drug, AIDS awareness programs, road-safety rally, Interaction with the senior citizens are carried out every year. Two weeks' extension activities during SIP-II are carried out in which students visit nearby areas, in locality and are involved directly with the society, thereby helping in creating harmonious relationship. Our students are on SIP-I &amp; II in their allotted schools, they organized different types of activities like slogan writing, poster making etc. to create environmental awareness in schools.</p> <p>Different activities performed-</p> <ul style="list-style-type: none"> <li>i.
